Trusted to serve Scotland

## Road closure on A834 from 22 January 2018 for 3 weeks

**Key**

-  Road closed
-  Diversion

# We are taking care of the sewer network in Strathpeffer.

Scottish Water, with its alliance partner amey-Black and Veatch (aBV), will be carrying out essential work to renew the main sewer in Strathpeffer on the A834. To enable us to rebuild a manhole safely, we need to close a short section of the A834 in Strathpeffer to traffic for up to 3 weeks.

Please see the front of this postcard for details of the diversion route.

## While this work takes place:

- Road access to the primary school, medical practice and community centre will be from the Contin side of the works only.
- Road access to the Square and Spa Pavillion will be from the Dingwall side of the works only.
- Pedestrian access past the working area in Strathpeffer will remain possible throughout.
- Traffic will be diverted via the A835 between Contin and the Maryburgh Roundabout – please allow extra time.
- The existing 27 bus service will operate as normal however it will terminate at the road closure at the Square in Strathpeffer and return to Dingwall. An additional shuttle bus service will operate from the other side of the road closure on the proposed diversion route to Dingwall via Contin to ensure the Strathpeffer village stays connected from both ends of the road closure. Arrangements have been made for school transport services to continue, using the diversion where necessary. Additional information will be posted on the website listed below.
- Local businesses will remain open as usual while we are working.
- We will be carrying out further work in the village after the road is re-opened under traffic lights.

Sorry for the inconvenience this essential work may cause. Thank you for your patience.
