

## Aims:

- To enable pupils through a series of activities to learn the key messages about water safety
- To develop informed attitudes about water safety

## Materials:

Copies of the Worksheets at the appropriate level for each pupil:

- Worksheet 1 - Summer Water Safety Story
- Worksheet 2a/b - Summer Water Safety Quiz
- Worksheet 3 - Winter Water Safety
- Worksheet 4 - Water Safety Wordsearch
- Worksheet 5 - Water Safety Signs

## Method:

- This series of activities provide key information about water safety
- They can be used in any order and as a classroom or homework task
- It may be useful for you to identify the key messages that pupils must know
- A water safety campaign could also be organised by the pupils. Although materials are not provided here for this, the Saving Water and Water Pollution Campaign material will provide the framework

**Water safety is an important part of education about water. Each year Scottish Water runs a Summer and Winter Safety Poster Competition for primary schools to raise awareness. Look out for the entry forms. Alternatively run your own in school.**
