Multi-site drought interventions in Lintrathen, Kirriemuir

As you may be aware, we are addressing the low water levels in the Loch of Lintrathen. Over the last 8 weeks, we have been busy installing a large diameter pipe which will allow us to over-pump water to Melgam Burn from the River Isla, allowing us to preserve supply in the Loch of Lintrathen.

Project Progress

We are pleased to share that we are making good progress, and that approximately 70% of the pipe has now been laid in the carriageway alongside the Loch of Lintrathen despite frequently encountering hard rock while excavating. Our next step will be the construction of the break pressure chamber.

The resurfacing works for this section is underway, and we have completed the first stretch of road near the Wee Bear Café.

We have also been working behind the scenes on Scottish Water land nearby, and this section of pipe laying is also roughly 70% complete.

What's next?

We have carried out vegetation clearance down to the River Isla to allow us to install a stable access track down to the extraction point.

The pipe installation on and off the carriageway will continue to be in progress simultaneously. **The road closure will remain in place until the middle of December, as planned.**

Water Is Always Worth Saving

Thank You

We would like to thank you for your continued cooperation and understanding while we carry out this essential project.

Health & Safety – Keeping Your Children Safe

Understandably some children are drawn to construction sites as exciting places to play, but they are not playgrounds and playing on them can have fatal consequences.

While the numbers of children being killed or injured on construction sites has reduced, there is no room for complacency as even one incident is one too many.

Scottish Water is asking parents/ guardians to help us keep children safe by following the suggestions below:

- Warn children against playing in dangerous areas, including building sites
- Make sure you know where your children are going, and when they will be back
- Encourage them to play only in safe areas such as playgrounds

One Community

When undertaking projects Scottish Water strives to engage with affected communities and work together as best as possible.

In the meantime, should you wish to contact Scottish Water in relation to the project, you can:
