

# using water wisely

## tip 1

**Make sure taps aren't dripping, turn them off properly or replace the washer.**

A dripping tap wastes at least 5,500 litres of water a year - in a year that's enough to fill a paddling pool every week for the whole summer.

save water... save energy...  
save the environment

It's not about the water we use, it's about the water we waste. For more information about using water wisely in and around the home visit [www.scottishwater.co.uk](http://www.scottishwater.co.uk) or call our **Customer Helpline** on **0800 0778778**.
