

# DRAINING THE RAIN

Scottish  
Water

We are carrying out essential improvement works to the waste water network in your area. Working with the Scottish Environmental Protection Agency (SEPA) we have identified priority upgrades to the Storm Overflows (SO) to reduce sewer related debris reaching the water environment. This project is part of Scottish Waters Improving Urban Waters (IUW) programme.

To allow us to carry out this work we need to construct a new temporary access road through Jubilee Park to allow vehicular access to Inchview Gardens, St Bridgets Brae North and Dalgety Bay Primary School. The footpath through Jubilee Park will be closed with a large section of the park fenced off for site compound, welfare and office.

Thank you for your patience and understanding whilst we carry out these essential works. Any questions? Call Scottish Water on 0800 0778 778 quoting Ref: Capital/507545/CWA
